Maccabee Social.

Pendleton Garments.

Today the first consignment of Pendleton-made garments from the Woolen Mills, was delivered to merchants who will hereafter handle these goods. The garments consist of the smoking jackets, bath robes, shooting jackets, Arctic jackets and golf jackets, all of which are made after special designs of Manager C. J. Ferguson, and are all entirely unique and special for this trade. Three new sewing machines are now being installed, making a total of six machines to be operated in the manufacture of the Pendleton mills garments. The machines are all operated by power and will be run constantly. This is one of the most important additions ever made to the manufacturing interests of Pendleton, as the demand for such articles as are now being made, has been heavy, but all the goods used to supply the home markets, heretofore, have been imported.

EDUCATIONAL REPORT MADE

SIXTEEN MILLIONS OF PUBLIC SCHOOL CHILDREN

Total Cost of Public School System in the United States for One Year
Is \$251,457,625—Enrollment in Private Schools Amounts to 1,093,876—Colored Children to the Number of 1,578,672 Enrolled in Public Schools.

The report of the commissioner of education for the fiscal year ending June 30, 1904, just made public by the secretary of the interior, shows that 16,099,831 pupils, or 9 per cent. of the entire population of the country, attended the public schools during that year.

As compared with the previous six years, this percentage shows a slight decrease in the number of pupils as compared with the total population. The total cost of the public school system is given as \$251,457,625. This is an increase of \$16,099,000 over the previous year. It amounted to \$3.15 per capita of total population and \$22.75 per capita per pupil.

Since 1870 the proportion of male teachers has decreased from 39 per cent. of the entire number to 26 per cent. the past year. The average compensation for male teachers last year was \$49.95 and \$40.51 for females. This is a slight increase over the previous year. The enrollment in the private schools for the year is given as 1,093,876.

By the addition of pupils in elementary schools, business colleges, private kindergartens, Indian schools, state schools and schools for defective orphans, the grand total of 18,678,707 pupils is reached.

The report shows that last year 1,578,672 colored children were enrolled in the common schools for that year in the former sixteen slave states and the District of Columbia.

The enrollment of 1873, the first statistics taken of the colored schools, was 17,845. Since 1878 it is estimated that \$130,000,000 has been expended in the education of the colored children in the former slave states and nearly \$600,000,000 for same purpose for the white children of the same section.
